

## Reading comprehension:

Read the text and answer the questions about the text.

### A day in Sid's life.

Sid, Dave's cat, lives in the Prestons' house. He usually sleeps in Dave's room under his bed. When Dave gets up at seven o'clock in the morning, Sid sleeps ten more minutes. Then he gets up, too, and waits under the breakfast table for  
5 Dave, because he sometimes gets something good from Dave's breakfast. When Dave is at school in the morning, Sid often explores the neighbours' gardens for mice. He is often lucky and gets a mouse and eats it. There are rabbits in the park, but not in the neighbours' gardens. Sid usually  
10 comes back home at eleven and sits in front of Mrs Preston's surgery, because Mrs Preston looks after the neighbours' pets. Sometimes a neighbor brings a nice young cat to the surgery, because this cat needs help. That's how Sid always finds nice girl friends. In the afternoon he often goes to this  
15 cat's house and miaows under her window. When she comes out, he takes her to a garden and shows her how she can find a mouse. That's why many cats love Sid. When Dave comes home from school, he does his homework. Then Sid always sits next to him and watches him, because after homework  
20 Dave gives Sid lots of cat food. That is Sid's best time of the day. In the evening Sid usually sits in the Prestons' living-room and watches TV with them. Sid loves TV films with cats, mice or budgies. He goes to bed with Dave and sleeps under Dave's bed. He has got a wonderful life in the  
25 Prestons' house.

Answer the following questions:

1. Which of the three sentences is true? Tick (✓) T(=) true or F(=false). Explain why the false answer is false.
