

Sports activities in my family and by my friends
(Put in **for** or **since**)

I've got a new friend at school. His name is Kevin, and he sits next to me in the classroom. His family moved from Liverpool to Greenwich in July. So he has lived here **since** (1) July. It's January now; so he has lived here **for** (2) six months. He came to our school in September; so he has been my classmate **for** (3) five months. We started to play table tennis together in October; so we have played together **since** (4) October, i. e. we have played together **for** (5) four months. Unfortunately, he had an accident last week; so we haven't played **for** (6) a week. He has been in hospital now **for** (7) a week, but he will stay in hospital **for** (8) another week. My father has played table tennis **since** (9) he started high school; so he's better than I am. I'm sure that I'll beat him if I practice hard. Of course, he has played **for** (10) thirty years and I have only played **for** (11) half a year; but my reactions are quick and I can run fast. So sooner or later I'll beat him. My mum doesn't play table tennis. She has never played table tennis. But she has played lawn tennis **since** (12) she joined a tennis club in 2016. So she has played **for** (13) six years. I also play lawn tennis, but I can't beat her yet. Just wait **for** (14) a year, and I'll beat her, too.

I also play football; I'm good enough to play in the school team. I've played in the school team **for** (15) two years now, that means I have played **since** (16) 2021

In summer I love swimming. I learned to swim when I was five years old. So I have been a swimmer **since** (17) I was five years old. I'm twelve now: so I've been a swimmer **for** (18) seven years.

My sister is a swimmer, too. She learned to swim when she was 4 years old in 2017. So she has been a swimmer _____ **since**₍₁₉₎ 2017; so she has been a swimmer **for** ₍₂₀₎ almost six years.

She also loves riding her bike. Well, she started with a tricycle when she was three. So she has been a cyclist **since** ₍₂₁₎ 2016; so she has been a cyclist **for** ₍₂₂₎ seven years.

Aren't we a great family with many sports activities?
